## **\* MEETING NOTICE \***

### **JACKSON COUNTY FORESTLAND-URBAN INTERFACE CLASSIFICATION COMMITTEE MEETS OCTOBER 26**

The Jackson County Forestland-Urban Interface Classification Committee meets Tuesday, October 26, 9:00 a.m., at the Rogue River Fire District, 5474 N. River Road, Rogue River. The committee will continue reviewing forestland-urban interface areas in the Rogue River and Wimer areas.

The committee focuses on developed urban and suburban lands that are in areas where potentially destructive wildfires are likely to occur, and where there is a structural density of at least four dwellings per 40 acres. Owners of these lands are required to reduce potentially flammable vegetation around structures and along driveways.

The forestland-urban interface identification and classification process is described in the Oregon Forestland-Urban Interface Fire Protection Act, also known as Senate Bill 360.
